

Compressed air tank Series AT01

Design type	Buffer tank according to 2014/68 EU
Connection	G1/2" according to ISO228/1
Materials	Housing Steel epoxy-coated
Medium temperature	-10...+60°C
Mounting type	Installation in rigid piping system
Mounting position	any
Storage medium	Compressed air, Nitrogen, other media on request
Application range	Only as a buffer tank in such a way that the tank is connected to the pressure generator without shut-off capability. Otherwise, a safety valve must be provided.
Permissible operating pressure	max. 11bar
